

**DISTRIBUTING TREATS AND GIFTS AT SCHOOL**

The Bonneville School District Board of Trustees understands that special days like birthdays and class celebrations are important to children. Occasionally students wish to observe these special days at school. If a student wishes to share a treat or celebrate with his or her classmates, parents are required to contact the child's teacher in advance to make arrangements in an effort to minimize disruption of the learning process.

**Guidelines**

1. All food items served as a treat shall be commercially produced with a legible label identifying ingredients and allergen warnings. Food items that include allergens should also be individually wrapped.
2. Flowers, Mylar balloons, or other gifts will be delivered at the end of the school day to minimize distraction in the classroom.
