D. Bond Authorization

1. Special Education Definitions - Julian Duffey, Director of Special Education

Chairman Jenkins invited Julian Duffey to explain Special Education terms to the Board. Mr. Duffey defined the main terms of special education. He stated that the District currently has 1,700 special education students, all requiring an IEP and/or a 504 plan. Special education public school program are mandated to have certain number of classrooms and all program options available to students. As our area grows increases the need for more program space. All special education programs will stay in place if a hub is not built; however, having a central location increases collaboration and needs of students who require more than one program and inclusion in general education classrooms. Students will still receive the programs they need if a new center is not built.

Mr. Dance stated that he feels that building an elementary school now is a good idea and any delay would only put more stress on the current elementary schools. He is willing to move forward with both the elementary and middle school buildings. He feels that if the special needs hub is withdrawn, could lower the cost.

Mrs. Landers encouraged the bond money set aside for land and design services to be defined for each specific service.

Mr. Calder suggested a three tiered ballot, with items prioritized by need. The passage of the tiers would be determined by the passage of the first tier. Meaning, if the first tier passes or fails, then the subsequent tiers would follow suit. Tiers would be tied together, not posted as separate questions.

Mr. Woolstenhulme stated that an extended special education program currently at Mountain Valley elementary would extend into the new elementary school, whether 650 or 850 core.

Mr. Pymm stated the importance of integrating special education programs enhances special education staff to collaborate.

Mr. Lynch stated that need is everything and to limit politics. Now is a better time to build since costs will rise as time goes on.

MOTION: Chad Dance moved to proceed adopt Option 2 as written: 1,000 core middle school, additional projects including additional \$500,000 for land and design services for future schools, and 850 core elementary school with special education facility. Scott Lynch seconded.

Amendment to the MOTION: Amy Landers move to amend the motion to separate the land and design services for future schools for \$1,000,000 for land acquisition and \$500,000 for architecture design. Chad Dance seconded. The vote was 5 in favor with 0 opposed and 0 abstentions. Motion carried.

Amendment to the MOTION: Amy Landers moved to amend the motion to remove the special education facility from the elementary school and build a 650 core elementary school. There was not a second; therefore, motion failed.

Amendment to the MOTION: Greg Calder moved to amend the motion to structure Tier Two that it cannot pass on its own, but as an addition to Tier one. Amy Landers seconded.

To clarify, if Tier One doesn't pass, neither will Tier Two pass even if it is in the majority.

Chad Dance asked to withdraw his motion. Permission was granted by Chairman Jenkins.

All options are reviewed again, then a motion was made.

MOTION: Amy Landers moved to propose a prioritized tiered ballot:

Tier One: 1,000 core middle school and Additional Projects and to separate the land and design services for future schools for \$1,000,000 for land acquisition and adding \$500,000 for architecture design;

Tier Two: 650 core elementary school without a special education facility; and to structure the ballot that Tier Two can only pass with the passage of Tier One (Tier Two cannot pass on its own merit.)

Greg Calder seconded.

Amendment to the MOTION: Chad Dance moved to amend the motion to strike out "650 core elementary school without a special education facility" and replace it with "850 elementary school with special education facility". Greg Calder seconded. The vote was 5 in favor with 0 opposed and 0 abstentions. Amendment to the Motion carried.

Amended MOTION: Chairman Jenkins restated the amended motion: It is moved to propose a prioritized tiered ballot: Tier One: 1,000 core middle school and Additional Projects and to separate the land and design services for future schools for \$1,000,000 for land acquisition and adding \$500,000 for architecture design; and Tier Two – 850 core elementary school with a special education facility. Majority of the Board of Trustees voted in favor of the motion as amended. Motion carries.
